CIP SAINT LUCIA
BOND PROCESS

**THE BEST OPTION TODAY
FOR OBTAINING
CITIZENSHIP BY
INVESTMENT THROUGH...
...THE COVID 19 RELIEF
FUND OF SAINT LUCIA!**

In St. Lucia the COVID 19 RELIEF FUND

made a lot of noise among investors who are interested in investing in government bonds. Recently, the country has proposed a **time-limited offer** through the end of the year. Now, the investment option, which was not very popular earlier due to the high entry threshold, is well known to investors. **If you do not want to simply donate your money** to the state in the form of subsidies, or if you doubt the region's real estate, then **this is ideal**. Bonds are issued by the country and the country is responsible for them.

US\$250,000 must be invested as follows:

- 1 applicant for a period of 5 years of ownership
- 1 applicant +1 for a period of 6 years of ownership
- 1 applicant +4 or more for a period of 7 years of ownership.

For those who do not want to wait, the state offers an opportunity to make a purchase for US\$300,000. Then the maturity of the bond is 5 years. For each additional dependent person, starting with the 6th person, you need to pay US\$15,000.

It is also worth noting that this is an interest-free bond, and at the end of the bond's term, the amount is returned to the investor.

Additionally, **the cost of the non-refundable administrative fee was reduced for the investor from US\$50,000**

to US\$30,000. This amount will need to be paid only after approval.

Non-refundable fees for processing the application by the government (US\$2,000 for the main applicant and US\$1,000 for each dependent) in this investment option **will not be charged!**

Does it sound **interesting** enough or you want more spice to take your first step?

Vardikos & Vardikos also has something special for you:
