# WHY SAINT LUCIA?

Saint Lucia is a services-driven economy led by tourism, insurance and financial services with tourism contributing the highest foreign exchange and direct investment. It is imperative that small open economies like Saint Lucia mitigate the vulnerabilities associated with over-reliance on a single sector by venturing into new revenue-generating industries.

The Saint Lucia Citizenship by Investment Program seeks to leverage the overarching brand and lifestyle opportunities of Saint Lucia into revenue-generating opportunities that have grown since it commenced receipt of citizenship applications on 1 January 2016.

## Build

Located below the hurricane belt, Saint Lucia is a retirement haven known for its subtle simplicity yet vibrant lifestyle. Her dual influence of English and French portrays her sheer Creole uniqueness and she offers reliable shipping and air freight services, a reputable telecommunications sector, a vibrant financial services sector, and leading education and healthcare facilities.

**Saint Lucia is ready to welcome you HOME!**

## Establish

Those granted citizenship through the program abound in wisdom and knowledge. Sharing their knowledge and skill sets through education, training, and philanthropic initiatives would be hugely beneficial for the development of Saint Lucia's people. **Let's work together to chart the path to a prosperous Saint Lucia.**
